

## PART.191

YOU CAN DO WITHOUT! ♡

ふたり  
エッチ

In contrast to the vibrator, the vibration is less strong and it's suitable for beginners, as well as experienced users.

A vibrating egg is, as the name already says, shaped like an egg and has a remote control. With its integrated battery-powered motor, it can vibrate on different levels.

A beach town with  
Yuko-san and  
Makunouchi-san.

QUITE  
CROWDED...

WE'RE  
HERE!

WOW!  
GREAT! SEXY!  
ENCHANTING!

MAKOTO-  
SAN!

YOU'RE  
EASILY  
DISTRACTED!

AH! LET ME  
DO THAT!

FIRST, I  
HAVE TO  
APPLY SUN  
LOTION!

AH LOOK,  
PARASOLS  
WITH PALM  
LEAVES!

WE'LL BE  
THERE LATER...

HOW IS THE  
SUN BATH?

LET'S  
BUILD A  
CASTLE!

AWHAY

This brings back  
childhood  
memories.

THEY WANT TO  
BUILD THE HOUSE  
WHERE THEY  
PLAY!

HERE IS  
THE BIG  
BALLROOM...

IT'S  
SUPPOSED TO  
BE A CASTLE!

ON THE  
FIRST FLOOR  
ARE THE  
BEDROOMS  
AND KITCHEN.

QUITE  
DETAILED...

HERE IS THE  
KITCHEN... AND  
THERE IS THE  
BATHROOM...

UM...  
HELLO...

A HOUSE  
WOULDN'T BE  
TOO BAD  
EITHER...

Well, children...

ARE  
THERE  
MORE?

AH! A  
CLAM!

HUH?

AH!

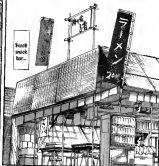

OH!

What are they  
doing there?

HENE...

HEY,  
LET GO!

RIGHT!  
YURA-SAN  
LOSES ALL  
RESTRAINT  
WHEN SHE'S  
DRUNK...

MAKOTO-SAN...  
CAN WE DO IT?

AAH!

KYOKO-  
SAN!

1. Press the vibrating egg onto the woman's body. Vary the pressure.

2. You should also vary the size of the contact zone for a change.

small  
contact  
zone

large  
contact  
zone

3. There are three different types of use possible. For example, indirect stimulation with underwear or a combination with lotion.

4. You should apply lotion or lubricant on the minor labia and the entrance to the vagina, because it's very sensitive.

A...  
AAH!!

The intensity of the vibration can be varied with the pressure on the egg. The stronger you press the egg in, the less intense the vibration. An intensity between 60% and 80% is ideal.

6. In the beginning you should be careful when touching the clitoris and only stimulate it on one place.

AAH!!

5. With twisting movements, you can stimulate the entrance to the vagina.

HYAA!!

The clitoris emits and receives from the fornix.

7. A vibrating egg is only meant for the stimulation of the clitoris. But you can also insert it into the vagina or anus.

OH YEAH!  
PULL ON THE  
CABLE!!

AH...  
HYAH!!

AND HOW CAN  
I GET IT OUT  
OF HERE?

The stimulation of the nipples or clitoris with the vibrating egg during the intercourse increases the feeling of lust enormously.

It's worth it to stimulate other sensitive body parts with the vibrating egg as well, for example the ears, neck and nape area, armpits, the back of hands and feet, hollow of the knees and so on.

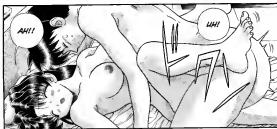

AH... UAAH!

MAKOTO-SAN!
